Just hadn't caught up on emails. Sorry for the redundant call.

Works for me, Matt. One grammatical edit to your changes below. Feel free to send to Cindy, and happy to discuss the CMS when you are available.

Thanks,

Peter

Peter,

I would suggest a slight tweaking. I'm always and advocate for not assuming that the congressional staff have the full context (i.e. that States have primacy). Would this work?

I would like to visit about this, and how to move forward on the CMS. I'll look at your calendar.

EPA has not been able to give the petition a substantial review. It's likely that this will take some time, as the submission is over 1,500 pages in length, and was submitted 1 week ago, on January 16, 2020. However, EPA is aware of

the Ground Water Management Agency and the important role GWMA's play in supporting assessment and management of ground water resources by state and local stakeholders. EPA does not currently have an active role in the Lower Umatilla Basin GWMA. The State has primacy for Clean Water Act and Safe Drinking Water Act regulation, and they have played the lead role.

Subject: Matt -- RE: Walden - Umatilla Basin Petition Inquiry

Hi Matt: Left you a voice mail. Here's my suggestion:

Requestor excerpt ... "has the EPA reviewed the petition? Is there an initial reaction from the EPA? And is the EPA aware of all of the activity that NOWA and the State are doing to work on a number of water-related issues in the Umatilla Basin?"

Background response: EPA has not reviewed the petition and it's 1000+ pages of appendices submitted on January 16, 2020. However, EPA is aware of the Ground Water Management Agency and the important role GWMA's play in supporting assessment and management of ground water resources by state and local stakeholders. EPA does not currently have an active role in the Lower Umatilla Basin GWMA.

Yes. I have another urgent matter I'm dealing with in the morning too, but this is a priority.

Cindy, to date, we've been jointly working the issue with the Water Division. I will forward it and leave it to Peter and Matt to decide who should respond. Thanks.

Hi Ed, I understand that your office is the one that can help with a response to this congressional inquiry. It does not need to be formal. Please let me know if I should work with one of your staff members.

Also, Ed and Marianne, since we are in the midst of preparing for budget hearings, do you think this is something that needs a budget briefing paper?

Cindy, x. 1815

Subject: Walden - Umatilla Basin Petition Inquiry

Hey Cindy!

Thank you for taking my call today. Again, I had just wrapped up a call with Northeast Oregon Water Association (NOWA) before calling you. They have a lot of concerns about the long standing impacts of this petition, and were hoping I could get some information from you all on.

Here is the article I mentioned when we spoke today:
https://www.eastoregonian.com/news/local/activists-petition-epa-to-step-in-on-groundwater-emergency-in/article_d7588b8a-38b3-11ea-b6c9-672ddf79c426.html

NOWA's concern is pretty well laid out in this article. I was really just hoping for some background on EPA's end – has the EPA reviewed the petition? Is there an initial reaction from the EPA? And is the EPA aware of all of the activity that NOWA and the State are doing to work on a number of water-related issues in the Umatilla Basin?

Whatever information you can share is most helpful!

Thanks,

Tucker
